

Environmental Policy

The Top Management of Mey Chern Chemicals Sdn Bhd., in carrying out its business, commits to observe and practice within the relevant guide lines as provided for by the Environmental Quality Act and Regulations Act 127 and any other applicable legal requirements.

In order to achieve this objective, all employees must be aware of the importance of, and feel responsible to help, create and maintain, a clean and healthy place to work in, in the Company.

Heads of Department, including supervisors, are responsible in carrying out such tasks in their work places by reporting to the MR and/or Managing Director, by following the guide lines as follows :-

1. To take control on any potential pollution that may occur at the work place.
2. To practice reuse, recycle and reduce waste generation.
3. To preserve and conserve natural resources, as far as practicable.
4. As a self- regulated Company, we are to, as far as practicable, ensure compliance of customers' requirements on environmental issues and legal requirements.

This Policy is subjected to changes in order to continually improve all aspects of the environment around us.

WONG SOW KHONG
(Managing Director)
